

Is Glorifli Worth It?

We guarantee 10 new qualified leads in 60 days. If only 30% close — the industry conservative — that's 3 new paying clients. Here's exactly what that means for your industry.
Your investment: \$1,256.50 upfront (website) + \$589.50/mo SEO/AEO — FREE until 10 appointments are booked.

THE MATH

10 Qualified Leads Delivered in 60 Days	30% Conservative Close Rate	3 New Clients You Actually Win	60 Days Your ROI Timeline

AT A GLANCE — 60-DAY RETURN SUMMARY

Industry	Avg. Job Value	3 Clients = Revenue	Your Cost*	60-Day Net Profit
Roofing	\$11,500	\$34,500	\$1,256.50	+\$33,244 (2646% ROI)
HVAC	\$8,500	\$25,500	\$1,256.50	+\$24,244 (1929% ROI)
Plumbing	\$1,800	\$5,400	\$1,256.50	+\$4,144 (330% ROI)

HOW TO USE THIS SHEET

Pull this up during your pitch when you present pricing. Walk the prospect through the math for **their specific industry**. The goal is to reframe the investment: you're not asking them to spend \$1,256.50 — you're showing them how to **turn \$1,256.50 into \$5,400–\$75,000 in 60 days**. Remind them: **the SEO/AEO service is completely free until all 10 appointments are booked — they only pay the \$1,256.50 website fee upfront**. The monthly SEO retainer doesn't start until the guarantee is met.

Roofing

Avg Job: \$11,500 × 3 Clients = \$34,500 Revenue → +\$33,244 Net Profit (2646% ROI)

"A single roof job in your market is worth around \$11,500. We're guaranteeing you 10 qualified leads — not tire-kickers, people who searched for a roofer in [city] and landed on your site because Google or ChatGPT sent them there. Close 3 of those and you've made \$34,500 from a \$1,256 investment."

"The only question is: do you want to keep missing those jobs, or do you want a site that brings them to you automatically?"

HVAC

Avg Job: \$8,500 × 3 Clients = \$25,500 Revenue → +\$24,244 Net Profit (1929% ROI)

"A full HVAC replacement in your market typically runs \$8,500 or more. Three closed leads at that average is \$25,500 in revenue — from a \$1,256 website. And those aren't cold leads. These are people who searched for HVAC in [city] right now, which means they already have a broken system and they need someone today."

"That's the beauty of SEO/AEO leads — urgency is already built in."

Plumbing

Avg Job: \$1,800 × 3 Clients = \$5,400 Revenue → +\$4,144 Net Profit (330% ROI)

"Plumbing leads are high-frequency — people need you fast and they don't shop around much. Even at a conservative \$1,800 per job, three closed leads covers your website cost with \$4,143 left over. And these aren't random calls — they're people who searched for a plumber in [city] right now."

"The SEO we build keeps working every month. Month two, month six, month twelve — the leads keep coming."

Landscaping

Avg Job: \$4,500 × 3 Clients = \$13,500 Revenue → +\$12,244 Net Profit (974% ROI)

"Landscaping projects average \$4,500, and your clients often become repeat customers for maintenance. Three new jobs from our campaign means \$13,500 in revenue. That's \$12,243 in profit against your \$1,256 investment — in 60 days."

"And because we're targeting local, high-intent searches, these are people actively planning a project right now — not just browsing."

Home Remodeling

Avg Job: \$25,000 × 3 Clients = \$75,000 Revenue → +\$73,744 Net Profit (5869% ROI)

"Home remodeling is where this becomes almost absurd. The average project is \$25,000. Three closed leads means \$75,000 in revenue from a \$1,256 website. That's a 5,873% return on your investment in 60 days."

"Most of our remodeling clients tell us one job alone would have paid for the website ten times over. The math isn't complicated — it's just hard to believe until you see it working."
